Objective

Facilitate continuous policy learning across EU by creating an Interreg Europe community of peers

- ➔ Better exploit the projects' results (*internal Capitalisation*)
- ➔ Open up the programme results to anyone interested (*external Capitalisation*)

Policy learning platform

Policy Learning Platforms are a new feature to Interreg Europe to open up the programme's knowledge for the benefit of all the **project partners and the whole community of regional policy stakeholders**.

There is one policy learning platform per policy area covered by Interreg Europe:

- 1) [Research and innovation](#)
- 2) [SME competitiveness](#)
- 3) [Low-carbon economy](#)
- 4) [Environment and resource efficiency](#)

The platforms are a hub of information and services for **continuous learning** where any organisation dealing with regional development policies in Europe can find inspiration and solutions to improve the way they design and implement their public policies in these four areas. Within each thematic platform, you can find people, projects, events and information related to your topic of interest.
